Dear Parents/Carers,

## **College System Restructure**

I am writing to inform you of the staffing restructure to the current College system as a result of Mr Beck and Ms Shortt stepping down from their positions as College Achievement Leaders at the end of this academic year. We would like to take this opportunity to publicly thank them for their tireless work and commitment in these roles.

We have taken this opportunity to reevaluate the needs of our school and have decided to revisit the College system. We have made the decision to replace the role of College Achievement Leaders to Achievement Leaders with specific year group responsibilities. This, we believe, will enable a clearer contact point for staff, students and parents whilst also allowing us to deliver more regular specific year group related provision.

We are also delighted to announce that we have appointed Mr Beck into the role of Coordinator of College Activities and Student Leadership. We intend to deliver an extensive and varied programme of extra-curricular activities and inter-college competitions and through the addition of this role we hope to cement and continue to raise the profile of our individual Colleges.

We place real value on our Vertical Tutor System; students will therefore remain in their current tutor groups. A parent's first point of contact for any whole school concerns will continue to be your child's Form Tutor. If your query or concern needs escalating, it will be forwarded to the relevant Achievement Leader for that year group or subject teacher for individual subject concerns.

Students are being informed of these changes through their assemblies this week.

Please find below the contact details of our Achievement Leaders.
